

The Levett School Cornerstones Curriculum September 2026

Big idea	Concept/Aspect	Nursery	Reception	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
Humankind	Communication	AOL: World Find out about and use a range of everyday technology. Covered breadth	AOL: World Find out about and use a range of everyday technology. Covered breadth	Recognise common uses of information technology beyond school. Know that for most people the internet is an integral part of life and has many benefits.	Use technology safely and respectfully, keeping personal information private; identify where to go for help and support when they have concerns about content or contact on the internet or other online technologies. Required coverage Know that the same principles apply to online relationships as to face to face relationships, including the importance of respect for others online including when we are anonymous. Know how to critically consider their online friendships and sources of information including awareness of the risks associated with people they have never met. Know what sorts of boundaries are appropriate in friendships with peers and others (including in a digital context). Know how to respond safely and appropriately to adults they may encounter (in all contexts, including online) whom they do not know. Required coverage Know that for most people the internet is an integral part of life and has many benefits.	Use technology safely, respectfully and responsibly; recognise acceptable/unacceptable behaviour; identify a range of ways to report concerns about content and contact. Know that people sometimes behave differently online, including by pretending to be someone they are not. Required coverage Know that the same principles apply to online relationships as to face to face relationships, including the importance of respect for others online including when we are anonymous. Know how to critically consider their online friendships and sources of information including awareness of the risks associated with people they have never met. Required coverage Know that for most people the internet is an integral part of life and has many benefits. Know that the internet can also be a negative place where online abuse, trolling, bullying and harassment can take place, which can have a negative impact on mental health.	Use technology safely, respectfully and responsibly; recognise acceptable/unacceptable behaviour; identify a range of ways to report concerns about content and contact. Know about different types of bullying (including cyberbullying), the impact of bullying, responsibilities of bystanders (primarily reporting bullying to an adult) and how to get help. Required coverage Know the rules and principles for keeping safe online, how to recognise risks, harmful content and contact, and how to report them. Know how to report concerns or abuse, and the vocabulary and confidence needed to do so. Know that bullying (including cyberbullying) has a negative and often lasting impact on mental wellbeing. Required coverage Know where and how to seek support (including recognising the triggers for seeking support), including whom in school they should speak to if they are worried about their own or someone else's mental wellbeing or ability to control their emotions (including issues arising online). Required coverage Know where and how to report concerns and get support with issues online.	Use technology safely, respectfully and responsibly; recognise acceptable/unacceptable behaviour; identify a range of ways to report concerns about content and contact. Know the rules and principles for keeping safe online, how to recognise risks, harmful content and contact, and how to report them. Know how to report concerns or abuse, and the vocabulary and confidence needed to do so. Required coverage Know how to consider the effect of their online actions on others and know how to recognise and display respectful behaviour online and the importance of keeping personal information private. Know that the internet can also be a negative place where online abuse, trolling, bullying and harassment can take place, which can have a negative impact on mental health. Know where and how to report concerns and get support with issues online. Required coverage	Use technology safely, respectfully and responsibly; recognise acceptable/unacceptable behaviour; identify a range of ways to report concerns about content and contact. Required coverage Know that the same principles apply to online relationships as to face to face relationships, including the importance of respect for others online including when we are anonymous. Required coverage Know the rules and principles for keeping safe online, how to recognise risks, harmful content and contact, and how to report them. Required coverage Know what sorts of boundaries are appropriate in friendships with peers and others (including in a digital context). Required coverage Know how to consider the effect of their online actions on others and know how to recognise and display respectful behaviour online and the importance of keeping personal information private. Required coverage Know that the internet can also be a negative place where online abuse, trolling, bullying and harassment can take place, which can have a negative impact on mental health. Required coverage
		AOL: World Use technology safely and respectfully with support from adults. breadth	AOL: World Use technology safely and respectfully with support from adults. Covered breadth	Use technology safely and respectfully, keeping personal information private; identify where to go for help and support when they have concerns about content or contact on the internet or other online technologies. Know the rules and principles for keeping safe online, how to recognise risks, harmful content and contact, and how to report them. Know about the concept of privacy and the implications of it for both children and adults; including that it is not always right to keep secrets if they relate to being safe. Know how to consider the effect of their online actions on others and know how to recognise and display respectful behaviour online and the importance of keeping personal information private. Know where and how to report concerns and get support with issues online.	Use technology safely and respectfully, keeping personal information private; identify where to go for help and support when they have concerns about content or contact on the internet or other online technologies. Required coverage Know the rules and principles for keeping safe online, how to recognise risks, harmful content and contact, and how to report them. Know why social media, some computer games and online gaming, for example, are age restricted. Required coverage Know how to be a discerning consumer of information online including understanding that information, including that from search engines, is ranked, selected and targeted. Required coverage Know where and how to report concerns and get support with issues online. Required coverage	Use technology safely, respectfully and responsibly; recognise acceptable/unacceptable behaviour; identify a range of ways to report concerns about content and contact. Know how information and data is shared and used online. Know what sorts of boundaries are appropriate in friendships with peers and others (including in a digital context). Required coverage Know about the concept of privacy and the implications of it for both children and adults; including that it is not always right to keep secrets if they relate to being safe. Required coverage Know how to consider the effect of their online actions on others and know how to recognise and display respectful behaviour online and the importance of keeping personal information private. Required coverage	Use technology safely, respectfully and responsibly; recognise acceptable/unacceptable behaviour; identify a range of ways to report concerns about content and contact. Know the benefits of physical exercise, time outdoors, community participation, voluntary and service-based activity on mental wellbeing and happiness. Required coverage Know about the benefits of rationing time spent online, the risks of excessive time spent on electronic devices and the impact of positive and negative content online on their own and others' mental and physical wellbeing. Know that the internet can also be a negative place where online abuse, trolling, bullying and harassment can take place, which can have a negative impact on mental health.	Use technology safely, respectfully and responsibly; recognise acceptable/unacceptable behaviour; identify a range of ways to report concerns about content and contact. Know the rules and principles for keeping safe online, how to recognise risks, harmful content and contact, and how to report them. Know how to critically consider their online friendships and sources of information including awareness of the risks associated with people they have never met. Required coverage Know about the benefits of rationing time spent online, the risks of excessive time spent on electronic devices and the impact of positive and negative content online on their own and others' mental and physical wellbeing. Know that the internet can also be a negative place where online abuse, trolling, bullying and harassment can take place, which can have a negative impact on mental health. Required coverage	Use technology safely, respectfully and responsibly; recognise acceptable/unacceptable behaviour; identify a range of ways to report concerns about content and contact. Required coverage Know the rules and principles for keeping safe online, how to recognise risks, harmful content and contact, and how to report them. Required coverage Know how information and data is shared and used online. Required coverage

Big idea	Concept/Aspect	Nursery	Reception	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
	Digital citizenship	AOL: World breadth Find out about and use a range of everyday technology.	AOL: World breadth Find out about and use a range of everyday technology.	Be responsible, competent, confident and creative users of information and communication technology. breadth	Be responsible, competent, confident and creative users of information and communication technology. breadth Know how information and data is shared and used online. Know how to consider the effect of their online actions on others and know how to recognise and display respectful behaviour online and the importance of keeping personal information private.	Be responsible, competent, confident and creative users of information and communication technology. breadth Know that in school and in wider society they can expect to be treated with respect by others, and that in turn they should show due respect to others, including those in positions of authority. Required coverage Know that the same principles apply to online relationships as to face to face relationships, including the importance of respect for others online including when we are anonymous. Know how to respond safely and appropriately to adults they may encounter (in all contexts, including online) whom they do not know. Required coverage Know how to consider the effect of their online actions on others and know how to recognise and display respectful behaviour online and the importance of keeping personal information private.	Be responsible, competent, confident and creative users of information and communication technology. breadth Know that the same principles apply to online relationships as to face to face relationships, including the importance of respect for others online including when we are anonymous. Required coverage Know what sorts of boundaries are appropriate in friendships with peers and others (including in a digital context). Required coverage Know how to consider the effect of their online actions on others and know how to recognise and display respectful behaviour online and the importance of keeping personal information private. Required coverage	Be responsible, competent, confident and creative users of information and communication technology. breadth Know how information and data is shared and used online. Required coverage	Be responsible, competent, confident and creative users of information and communication technology. Optional breadth Know how information and data is shared and used online. Required coverage
Processes	Physical interactions	AOL: World breadth Create simple programs.	AOL: World Covered x 3 breadth Create simple programs.	Understand what algorithms are; how they are implemented as programs on digital devices; and that programs execute by following precise and unambiguous instructions. Create and debug simple programs. Required coverage	Understand what algorithms are; how they are implemented as programs on digital devices; and that programs execute by following precise and unambiguous instructions. Required coverage	Design, write and debug programs that accomplish specific goals, including controlling or simulating physical systems; solve problems by decomposing them into smaller parts. Use sequence, selection, and repetition in programs; work with variables and various forms of input and output.	Design, write and debug programs that accomplish specific goals, including controlling or simulating physical systems; solve problems by decomposing them into smaller parts. Use sequence, selection, and repetition in programs; work with variables and various forms of input and output.	Design, write and debug programs that accomplish specific goals, including controlling or simulating physical systems; solve problems by decomposing them into smaller parts. Use sequence, selection, and repetition in programs; work with variables and various forms of input and output.	Design, write and debug programs that accomplish specific goals, including controlling or simulating physical systems; solve problems by decomposing them into smaller parts. Use sequence, selection, and repetition in programs; work with variables and various forms of input and output. Use logical reasoning to explain how some simple algorithms work and to detect and correct errors in algorithms and programs.
Creativity	Creation	AOL: World Covered breadth Use technology to record their work and ideas.	AOL: World Covered x 13 breadth Use technology to record their work and ideas.	Use technology purposefully to create, organise, store, manipulate and retrieve digital content.	Use technology purposefully to create, organise, store, manipulate and retrieve digital content.	Select, use and combine a variety of software (including internet services) on a range of digital devices to design and create a range of programs, systems and content that accomplish given goals, including collecting, analysing, evaluating and presenting data and information.	Select, use and combine a variety of software (including internet services) on a range of digital devices to design and create a range of programs, systems and content that accomplish given goals, including collecting, analysing, evaluating and presenting data and information.	Select, use and combine a variety of software (including internet services) on a range of digital devices to design and create a range of programs, systems and content that accomplish given goals, including collecting, analysing, evaluating and presenting data and information.	Select, use and combine a variety of software (including internet services) on a range of digital devices to design and create a range of programs, systems and content that accomplish given goals, including collecting, analysing, evaluating and presenting data and information. Covered
Investigation	Data and computational thinking	AOL: World breadth Create simple programs.	AOL: World Covered x 9 breadth Create simple programs.	Understand what algorithms are; how they are implemented as programs on digital devices; and that programs execute by following precise and unambiguous instructions. Create and debug simple programs. Use logical reasoning to predict the behaviour of simple programs.	Required coverage Understand what algorithms are; how they are implemented as programs on digital devices; and that programs execute by following precise and unambiguous instructions. Required coverage Create and debug simple programs. Required coverage Use logical reasoning to predict the behaviour of simple programs. Required coverage	Use logical reasoning to explain how some simple algorithms work and to detect and correct errors in algorithms and programs.	Design, write and debug programs that accomplish specific goals, including controlling or simulating physical systems; solve problems by decomposing them into smaller parts. Use sequence, selection, and repetition in programs; work with variables and various forms of input and output.
