

ECO LEVETT

WHAT WE'RE DOING

Tree Appeal

Thanks to the wonderful "Tree Appeal", we have been gifted over 100 saplings to be planted across school site. These trees will support us to to promote sustainability and increase bio-diversity.

Clean Air Zone

The school will be implementing a "clean air zone" within school site, in order to improve air quality for pupils and staff.

PLANET

HOW YOU CAN HELP

Tree Appeal

Pupils will be involved in the planting of the saplings.

We politely request that all pupils are attending school with appropriate outdoor clothing for the weather, allowing them to participate comfortably with their outdoor learning.

Clean Air Zone

Please help us keep our school environment clean by avoiding engine idling while on site.

To support fresher air for everyone, we kindly ask that during drop-off and pick-up times, drivers switch off their engines once they are stationary and only restart them when the queue begins to move again.
