

HAVE YOUR SAY

Have your say on nature in South Yorkshire

South Yorkshire is developing its first Local Nature Recovery Strategy - a region-wide plan to bring back wildlife, restore habitats, and create more green spaces for everyone to enjoy. Public consultation is open now, and Kids Plant Trees want to ensure children, young people and parents across the region have their say, because the future of nature in South Yorkshire belongs to everyone.

There's a short, fun survey (around 5 mins) designed especially for young people, plus a longer one for parents (10 mins), and a chance to win £100 just for taking part. The consultation closes on Friday 31 July 2026.
