

In Maths, we will look at time, timetables, currency conversions, ratio and proportion. We will also look at transformations, Conversions for length, weight and capacity, and angles including bearings.

In English, we will read Around the World in 80 days, as well as other stories by Jules Verne. We will also look at writing newspaper articles and letters. In each different country we will also look at Myths and Fables.

In Art we will look at art from the countries we visit, e.g. Leonardo da Vinci, Manadala painting, death masks.

Around the world in 80 days

In humanities, we will look at the key geographical information of each country we visit, map reading and key historic times e.g. Italy – The Romans.

In Science, we will be looking at forces, friction, air resistance and making pneumatic toys. We will look at sound and the ear. To link with boats, we will look at density and pressure in liquids. We will also look at calculating speed and distance, including drawing graphs.

In Life skills, we will be learning important skills we need as we get older and more independent, including bus travel, washing, ironing, budgeting and road safety

In RE we will be learning about who makes the rules and how we decided something is good/bad and charity work

In Thrive, we will be learning lots of games from all around the world including boules, kabaddi, Kho=Kho, Egyptian board games, and Italian cheese rolling.
